If shooting takes place without the consent of the organiser the hunter incurs a penalty which is 200% of the price for that particular animal as shown in the price list below. In all such cases the Hunt Agency "DIANA" PZL Ltd will inform a national hunt organisation, a country of which a foreign hunter comes from.

C. Payments and reductions

1. All the prices indicated in the price list are gross prices. They are used for the calculation of fees between the Hunt Agency, the Provider, a foreign hunt agency or a hunter acting independently.
2. Methods of calculating the fees payable between the Hunt Agency and the Provider will occur after an invoice is presented by the Provider. He is also obliged to attach the range of his services as well as the results of hunting which are to be indicated there. (See. chapter II, point 3). Specification of the prices, indicated in the invoice, is carried out by a Hunt Agency's representative.
3. Settlement of accounts between a foreign hunt agency, a foreign hunter and the Hunt Agency is carried out only by the representatives of the two aforementioned hunt agencies when a detailed record is delivered by the Provider.
4. When game shoots are organised in cooperation with a foreign hunt agency all services provided and all animals shot have to be indicated in the official record; the clearing of accounts between the domestic and the foreign hunt agency is based on this formal record and then it has to be invoiced.
5. If a foreign hunter registers a complaint concerning the conditions of accommodation or the hunt, the payment (to the Provider) is withheld until the complaint is cleared up. The foreign hunter is obliged to inform the Provider and the Hunt Agency of his complaint as soon as possible after the problem occurs.

Complaints must be written and handed to the guide or left at the Hunt Agency office (a receipt will be issued) no later than the time of writing of the official record. The fact that a complaint has been lodged must form part of the record.

Complaints which are lodged after the hunt has finished, after leaving the hunting ground or leaving Poland, or which are not in written form, will not be taken into consideration.

II. Additional information

1. The Hunt Agency provides insurance for every foreign hunter whilst shooting game on Polish territory for Accident & Civil Liability. For a stay of up to 15 days, the insurance cost is **16 €**
2. A foreign hunter is required to adhere strictly to Polish hunt regulations mainly to those which are comprised in the directive issued on March 23, 2005 by Minister of Environment but particularly mentioned in chapters 2, 3 and 5 of the regulations. A foreign hunter has to be instructed before the hunt game begins by the Provider's representative or an interpreter/guide in a language which the visiting foreigner understands. A copy of these regulations will be sent on request. If infringement of the regulations occurs, particularly those concerning safety, the Provider is entitled to remove a hunter for a day or to stop all hunting. In these cases compensation is not payable at all.
3. When the hunt is finished the trophies of the chase are valued. A record, in Polish and in a language which is known by the foreigner, is completed on an official, numbered form. This form indicates the number, type and quality of trophies, a sort and quality of the provided services and is completed by a representative of the Hunt Agency in the presence of a representative of the Provider, the foreign hunter and the interpreter/guide.

The official hunt record establishes the basis for :

- the removal from Poland, duty-free, of the hunt trophies and carcasses
 - calculation of the fees between the foreign hunter and the Hunt Agency or a foreign hunt agency and the Provider
 - arbitration in case of dispute
4. Hunt trophies will be valued but no later than the time of writing of the official record (preparation of the trophies should take place at least 24 hours

earlier). If the hunter leaves less than 24 hours after the final trophies preparation then the actual weight (unprepared) of trophies will be entered on the record. This weight is used as the basis for calculating the fees; disputes will not be entered into. In the case when the trophy is of a medal value the Provider is obliged to inform a Hunt Agency's representative but no later than at the end of the hunt. This will enable the Hunt Agency to value the trophy according to CIC (Conseil International de la Chasse) formula.

5. If a foreign hunter takes the unprepared antlers of a deer as a trophy then the weight of the animal's head and the estimated weight of the trophy is put down in the record. The estimated weight of the trophy forms the basis in relation to which the fees are calculated. No dispute will be entered into.
6. The payment for an animal which has been shot remains payable even if the animal is not retrieved. The accompanying Polish hunter is obliged to look for the wounded animal and find evidence, such as blood or pieces of hair or bone, that the animal was hit. When the animal is found the Hunt Agency takes the fee for the trophy and for the spoiled carcass meat according to the current game prices. If required, a search can be continued after the departure of the hunter, following agreement (shown in the record) that payment will be made according to prices in the official price list and that the costs of forwarding the trophy by mail, to an agreed address, will be covered.
7. All shots fired at big game, including misses, are to be recorded. Misses are no paid.
8. The Provider is responsible for dealing with all customers' complaints relating to organisation or leading the hunts, conditions of accommodation, meals, skills and work of the staff, guides or interpreters.
9. If a foreign hunter decides to leave a skin or trophy in Poland this fact is noted on the official record in the 'remarks' section. Following this the skin or trophy cannot be later removed from the country.
